50 FEATURES · 10 INITIATIVES

Make the strategy buildable.

50
FEATURES

A concrete feature backlog for turning Casino-first activation and Make it Rain into one connected player experience.

JOIN → FUND → PLAY → FEEL VALUE → DISCOVER MORE → RETURN

Remove the distance to the first bet. Make every wager visibly do more.

HOW TO READ THIS

STRATEGY → FEATURES → INITIATIVES

One strategy. Three jobs.

The 50 features below are deliberately concrete. Every one should remove friction, create visible value, or give the player a reason to continue.

01
GET TO CASINO FASTER

Join, fund and reach the first Casino bet with less friction and no dead ends.

02
MAKE EVERY WAGER DO MORE

Make rewards, VIP, missions and progression visible around normal play.

03
KEEP THE RELATIONSHIP MOVING

Use personalisation, communication and live state to create the next reason to act.

FEATURES 01–06

What we actually build.

01 Join / Login Modal

Replace standalone auth pages with an overlay modal launched from any page.

02 Return-to-Origin After Join

Close the modal and return the player to the exact page or context they started from.

03 Fast Registration

Reduce sign-up to the minimum viable fields: email + password; mobile only if required.

04 Alternative Sign-In

Add Google and other approved identity channels; assess Telegram with Fraud / InfoSec.

05 Welcome Offer in Registration

Show the relevant welcome proposition inside the join flow, before the user commits.

06 Post-Sign-Up Welcome Moment

Create an exciting success state with clear value and a strong Fund & Play CTA.

FEATURES 07–12

What we actually build.

07 Welcome Email Sync

Mirror the same offer, message and next action in the welcome email.

08 Auto-Open Deposit Wallet

After joining, keep the user on the page and automatically open the deposit / wallet widget.

09 Offer Inside Deposit Widget

Keep the welcome offer visible in the wallet so deposit clearly unlocks the promised value.

10 Live Deposit Status Toast

Persistent site-wide status: awaiting, detected, confirming, received.

11 Live Balance Credit Animation

Make the balance visibly tick up when funds clear.

12 Reward / VIP Alert State

Animate the Rewards / VIP entry point when new value is ready or progress moves.

FEATURES 13–18

What we actually build.

13 One Rewards Hub

One place to view and claim free spins, rakeback, missions, races, VIP rewards and benefits.

14 Real-Time VIP Progress

Every eligible wager updates VIP progression immediately.

15 Instant Welcome Free Spins

Issue welcome free spins automatically as soon as the qualifying condition is met.

16 Instant Rakeback

Calculate continuously so rakeback is ready by the time a Casino session ends.

17 Every-Wager Activity Receipt

Show what play just contributed to: VIP, race, mission, rakeback and unlock progress.

18 Missions System

Evolve Bet & Get into clear Missions with objective, progress, reward, expiry and claim states.

FEATURES 19–24

What we actually build.

19 Race / Mission / Jackpot Side Rail

Persistent global module showing active races, missions, jackpots, raffles and claims.

20 Always-Something-Happening Widget

Dynamic module showing live activity: race ending, mission active, reward ready, etc.

21 Timed Rakeback Boosts

Configurable events such as 10% Rakeback Boost for one hour with countdown and earning state.

22 Double XP Events

Run scheduled periods where eligible wagers count 2x toward VIP progression.

23 Low-Balance Trigger

When balance falls below an agreed threshold, surface a relevant funding / reward prompt.

24 5-Minute No-Deposit Intercom Trigger

If a new player has not deposited, explain VIP, rewards and the next action in-product.

FEATURES 25–30

What we actually build.

25 Behavioural Reward Messages

Trigger messages from actual activity: rakeback ready, mission nearly complete, race entered, etc.

26 Predictive Churn Intervention

Use churn-risk signals to surface an appropriate next-best experience or retention offer.

27 For You Casino Row

Personalised game row based on behaviour, preferences, recency and player context.

28 Continue Playing Row

Persistent recent-games row so players resume instantly on return.

29 Next Game Recommendation

Recommend relevant games after a session based on preferences and game characteristics.

30 Post-Bet Casino Recommendation

After a Sports bet, surface a relevant Casino next step instead of ending the journey.

FEATURES 31–36

What we actually build.

31 Casino in Sports Dead Time

Use half-time, pending bets, between legs and settlement moments for relevant Casino discovery.

32 VIP Status Match

Homepage acquisition CTA for qualified VIPs to start at a matched status rather than from zero.

33 VIP Match Verification Journey

Submit evidence, verify, assign tier, show matched benefits, then move into deposit / play.

34 VIP Next-Level Preview

Show current tier, exact progress, next benefits and distance to the next level.

35 Player Stats Dashboard

Turn My Account into a useful player dashboard rather than a settings destination.

36 Biggest Wins History

Show notable wins, game or event, date and amount.

FEATURES 37–43

What we actually build.

37 Player P/L Chart

Transparent interactive profit / loss history over selectable periods.

38 Reward Earnings History

Show value earned across rakeback, cashback, free spins, missions, VIP and competitions.

39 Discovery from Play History

Recommend similar games from behaviour and preference, not generic popularity.

40 Free Pick'em Contests

Free sports prediction contests that create engagement before a cash wager.

41 Back My Picks

Turn eligible contest selections into a pre-populated real-money betslip.

42 Shared Sports + Casino Rewards Progress

Eligible activity across both verticals feeds the same reward and VIP identity.

43 One Reward Ledger

Single source of truth for every earn, progress event, claim, expiry and redemption.

FEATURES 44–50

What we actually build.

44 Real-Time Player Event Stream

Standard events for join, deposit, wager, game close, settle, reward, VIP movement and churn.

45 Offer Eligibility Engine

Central service decides which offer / reward a player can see and claim on every surface.

46 Reward Rules Engine

Configure rakeback, XP multipliers, games, missions, races, windows, limits and segments.

47 Journey-State Engine

Know whether a player is registered, pending deposit, funded, unplayed, reward-ready, at-risk, etc.

48 CRM Trigger Engine

Use journey and event changes to trigger Intercom, push, email and in-product communication.

49 Experiment / Holdout Framework

Create controls so reward and lifecycle changes can prove incremental retention and NGR.

50 Unified Notification Centre

One activity feed for deposits, withdrawals, rewards, missions, VIP, competitions and account events.

THE DELIVERY MODEL

Do not fund fifty projects.

Fund ten connected initiatives.

The feature list becomes manageable when we group it around the player journey and the platform rails underneath it.

INITIATIVES 01–02

Build in connected systems.

01

Frictionless Join & Welcome

Get the player from intent to a funded account without leaving the experience.

FEATURES 1-7

ACTIVATION

- Join / login modal + return-to-origin flow
- Fast registration + approved alternative sign-in
- Welcome offer, success moment and email aligned as one journey

02

Funding & First-Bet Activation

Make funding visible, reassuring and directly connected to first Casino play.

FEATURES 8-11

ACTIVATION

- Auto-open wallet with persistent offer
- Live crypto deposit status across the site
- Visible balance arrival / credit moment

INITIATIVES 03–04

Build in connected systems.

03

Real-Time Rewards Hub

Make value visible immediately after play and give it one home.

FEATURES 12-17

ENGAGEMENT

- One Rewards / VIP Hub
- Real-time VIP progress, free spins and rakeback
- Every-wager activity receipt and claim alerts

04

Always-On Reward Mechanics

Keep the site alive with something meaningful happening at all times.

FEATURES 18-22

ENGAGEMENT

- Missions and persistent live-activity rail
- Races / jackpots / raffles surfaced globally
- Timed rakeback boosts and Double XP events

INITIATIVES 05–06

Build in connected systems.

05

Behavioural CRM & Retention

Replace calendar-led messaging with communication triggered by player state.

FEATURES 23-26, 50

RETURN

- Low-balance and no-deposit interventions
- Behavioural reward messages and churn-risk actions
- Unified notification centre across key events

06

Personalised Casino Discovery

Make the Casino feel like it knows what the player is likely to want next.

FEATURES 27-31

DISCOVER

- For You + Continue Playing
- Next-game recommendations
- Casino discovery inside Sports dead time and post-bet moments

INITIATIVES 07–08

Build in connected systems.

07

VIP Acquisition & Progression

Use VIP as both an acquisition proposition and a visible long-term progression system.

FEATURES 32-34

DIRECT ENTRY / VALUE

- VIP Status Match acquisition journey
- Verification and matched-tier onboarding
- Live next-level preview and benefit visibility

08

Player Dashboard & Transparency

Turn My Account into a useful, transparent player product.

FEATURES 35-39

TRUST / VALUE

- Player stats dashboard
- Biggest wins, P/L and reward history
- Discovery informed by actual play history

INITIATIVES 09–10

Build in connected systems.

09

Sports-to-Casino Ecosystem

Use Sports engagement as a bridge into Casino without breaking the Sports experience.

FEATURES 40-42

CROSS-VERTICAL

- Free Pick'em contests
- Back My Picks into the betslip
- Shared Sports + Casino reward progression

10

Real-Time Product Foundation

Build the rails that make every other feature possible and measurable.

FEATURES 43-49

FOUNDATION

- Reward ledger + real-time event stream
- Eligibility, reward rules and journey-state engines
- CRM triggers + experiment / holdout framework

WHAT UNLOCKS WHAT

Build the rails before the moments.

The visible experience depends on four platform capabilities. Without them, every reward, message and progression mechanic becomes a one-off.

01

EVENT STREAM

Know what just happened.

02

REWARD LEDGER

Know what value was earned.

03

JOURNEY STATE

Know what should happen next.

04

RULES + ELIGIBILITY

Know what the player can receive.

THEN THE PRODUCT CAN REACT IN REAL TIME — NOT IN THE NEXT CAMPAIGN.

ONE CONNECTED EXPERIENCE

Get them in fast.

Make every wager do more.

Always give them a next reason.

50 features. 10 initiatives. One product behaviour: the relationship keeps moving.

MAKE EVERY WAGER MATTER.
